The VA has issued their Compensation and Pension Service Bulletin for January 2010. Included in the bulletin is a list of ships I boats that qualify for presumptive herbicide exposure.

Policy (211)

Information on Vietnam Naval Operations Compensation and Pension (C&P) Service has initiated a program to collect data on Vietnam naval operations for the purpose of providing regional offices with information to assist with development in Haas related disability claims based on herbicide exposure from Navy Veterans. To date, we have received verification from various sources showing that a number of offshore "blue water" naval vessels conducted operations on the inland "brown water" rivers and delta areas of Vietnam. We have also identified certain vessel types that operated primarily or exclusively on the inland waterways. The ships and dates of inland waterway service are listed below. If a Veteran's service aboard one of these ships can be confirmed through military records during the time frames specified, then exposure to herbicide agents can be presumed without further development. All vessels of Inshore Fire Support [IFS] Division 93 during their entire Vietnam tour
